

Join CO<sub>2</sub> Value Europe, the only association 100% dedicated to CO<sub>2</sub> utilisation!

## Who is CO<sub>2</sub> Value Europe?

CO<sub>2</sub> Value Europe is the only association exclusively **dedicated to Carbon Capture and Utilisation (CCU)** and which brings together partners from the **complete value chain** as well as **all relevant industry sectors**, with a focus on 3 pillars: CO<sub>2</sub> to chemicals, CO<sub>2</sub> to fuels and CO<sub>2</sub> to construction materials.

Our association was founded in November 2017 and already counts 70 members. European authorities recognize us as **the legitimate representative of the CCU community** and we are starting to attract interest from all over the globe.

*Together, we can **better address key issues** faced by the **nascent CCU industry**.*

## What's in for you?

Our members benefit from a unique network where they can:

- share **knowledge** and **expertise** with other pioneer partners
- make their **technology visible** to potential partners and customers (whether the technology is developed in Europe or not)

Being part of our association, you also benefit from the following services:

- **A common voice** to represent the CCU industry
- Increased visibility and **acceptance of CCU** as a valid **climate mitigation solution**
- Collective **advocacy** work to create a supportive regulatory and economic **framework**
- Collective definition of **industry standards**
- Connecting supply and **demand for captured CO<sub>2</sub>**
- Matchmaking to set up joint R&I and **"flagship" upscaling projects**
- Support to access **EU funding for projects**
- Support to access **funding from private** investors

To know more about CO<sub>2</sub> Value Europe, please look at our [website](#) and at our corporate presentation in the [library section](#).

*CO<sub>2</sub> Value Europe is the industry-driven European association committed to coordinate and represent the CO<sub>2</sub> Utilisation community in Europe and to build up an integrated vision and action plan to develop CO<sub>2</sub> Utilisation into a new industrial sector making a significant contribution to Europe's low carbon economy. It is the only association in Europe entirely dedicated to the subject, gathering stakeholders from all the relevant sectors of the CO<sub>2</sub> value chain: CO<sub>2</sub> emitters from all significant process and energy intensive industries, providers of decarbonated energy, industrial gas experts, CO<sub>2</sub> conversion technology providers, and users of CO<sub>2</sub>-based products.*
